INFORMATION DISCLOSURE STATEMENT

Sir:

Enclosed herewith, please find Form FTO/SB/08a pertaining to the above-identified application. A copy of the publication listed thereon is also enclosed.

Applicant recently became aware of the publication entitled, Mouse Cytokines: Sources, Cellular Targets, and *In Vivo* Effects. This information was published in 2003 by the University of South Florida on its website at www.research.usf.edu.

As set forth at several locations in the enclosed publication, cells are a species of the genus "growth factor." Such genus/species relationship would be so recognized by one skilled in the art. Applicant believes that this evidence conclusively demonstrates that cells are a type of growth factor and thus one skilled in the art, reading the term "growth factor" in the specification, would understand that cells are a species of growth factors.

Applicant requests the publication be made of record in the instant application.

Respectfully submitted.
